Reasons for Allowance

1. Claims 1-3, 7-12, 15-19, 21-27 are allowed.

Closed prior art of record relied on during the prosecution: Garfinkel et al., "Terra: A Virtual Machine-Based Platform for Trusted Computing", ACM, 2003.

The following is an examiner's statement of reasons for allowance:

In the argument remarks, Applicants had argued Garfinkel does not teach compound hash; the Garfinkel's hash values are directed toward software applications that are different from hardware configuration as recited in the manner:

determining a first VM platform configuration including a first hash value based on information measured from the first VM and a second VM platform configuration including a second hash value based on information measured from the second VM; using a trusted hardware device shared between the first and the second VM to determine a stored compound hash value based on a combination of the first VM platform configuration and the second VM platform configuration;

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
